

Official Rules

- Place the game board on the table
- Each player chooses a game piece and places it on the **Welcome to 2020** Start board space
- Players keep track of their **Electoral Votes** on a Tally Sheet
- Players take turns rolling the dice and move their game piece the number of spaces rolled on the dice
- If a player lands on the **You're in Quarantine** space or is sent to it, they **MUST** follow the 2020 game path downward on the board, otherwise it is counted as 1 space and players proceed to the next space (**Maine**)
- Players are to proceed around the perimeter of the board in a clockwise direction
- Players are not to count **Pennsylvania** as a space (along the perimeter) unless being sent through the 2020 game path
- Player then adds the number of **Electoral Votes** listed on the space they landed on to their Tally Sheet
- If the space the player lands on says **Lose Votes**, player then deducts that amount from their tally sheet
- If the player doesn't have enough votes on their tally sheet to deduct that number of votes, they must be totaled in the **Negative**
- Players follow instructions for each space landed on for their roll
- Players roll again if they roll **doubles** (unlimited number of times)

Object of the game is to be the first player to collect 270 Votes to win the "WHITE HOUSE"

2020 Draw A Card Space

If a player lands on 2020 Draw A Card Space, player follows directions on card

You're in Quarantine!
